This plan uses a provider network. You will pay less if you use a provider in the plan's network. Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist?	No.	You can see the specialist you choose without a referral. However, this plan covers only preventive care services which typically do not include treatment from a specialist.
